

ENVIRONMENTAL POLICY STATEMENT

Green Energy International operates as an environmentally conscious Company and recognises the potential impact that our operations may have on the environment. The core business is roof top and ground mounted solar photovoltaic systems and we are committed to carrying out these activities in a sustainable and responsible manner as part of a continued effort to minimise any potential environmental and health impacts. The senior management recognise that protecting the environment is the responsibility of every staff in the organization and are responsible for ensuring that this Environmental Policy is communicated, understood, implemented and maintained at all levels within the Company. As such the senior management is committed to ensuring that the Company:

- Incorporates environmental responsibility into all business operations by planning environmental protection, reviewing and developing policy, by setting targets and reviewing and auditing performance
- Complies with the requirements of existing and future legislation, and encourages sub-contractors who work on our sites to meet the same standards
- Protects the environment, prevents pollution and meets other specific relevant commitment(s)
- Maintains a systematic waste minimisation programme to reduce waste, avoid the use of terminal waste treatment and dealing with it as far as possible at source.
- Minimises waste to landfill by reducing our waste generation and by segregating and recycling waste where economically and operationally feasible.
- Uses energy, water, materials and other natural resources as efficiently as possible, giving particular regard to the long-term sustainability of consumable items
- Minimise the use of hazardous materials, energy and other natural resources
- Co-ordinates business transport so as to reduce consumption
- Ensures that the environment is considered in the procurement of goods and services.
- Being committed to maintaining effective communication systems on environmental matters through training and improved awareness.
- Achieves ISO 50001 at an appropriate time in the company's development.

This policy will be revised:

- When there are major changes in the size and nature of the business
- When new legislation comes into force or is updated
- Annually to ensure the policy remains up-to-date.
